

## Innovative Technology opens U.S. office

**Innovative Technology Inc.** is opening a U.S. office in Chicago. The company will initially concentrate on providing ticketing and printing solutions for the U.S. market. With a product range consisting of barcode coupon and ticket printers, the company offers two compact coupon printers, a high capacity casino-style flatbed printer, and SMART Ticket.

Tony Morrison, Sales Director in the U.K. office, said the company has made "a commitment to the American market and is our third new office to open this year (after Asia Pacific and Italy) as part of our global growth strategy."

Rebecca White is the Vice President of Sales and Business Development Americas; she has 20 years of industry experience. White said, "Having viable, truly innovative, and cost-effective solutions from a dynamic, customer-focused company like Innovative Technology is exactly what is needed in the U.S. market right now." For more information, visit ([www.innovative-technology.co.uk/](http://www.innovative-technology.co.uk/)).

## LCD kit from Speedy's One Stop

**Speedy's One Stop Repair Service** has developed a do-it-yourself LCD conversion kit. The company is bundling a converter board, universal mounting brackets, screws, connectors, Lexan, and an ABS bezel to save operators money and put new life into older games. The kit is priced with the converter board and without.

Speedy's can even upgrade old CCFL back lighting to newer LED technology. LED converted LCD monitors are bright and sunlight readable. Speedy's can fix any point of sale systems that are not under contract, and can fix the CPUs and the touch screens.
