BEAT THE GOALIE – BENCHMARK GAMES

BEAT the Goalie is a new bulk vendor from renowned amusement equipment manufacturer Benchmark Games. The unit is designed to dispense gum balls, jaw breakers or 27mm bouncy balls. Players inserting a coin will start the play with a single ball dropping down onto a ramp. Gravity keeps the ball moving down the ramps, but there are seven players at each turn looking to kick the ball off the ramp. If that happens, the player's play is over and they win one prize. Should the ball make it by the seventh "guardian," another ball will drop and the process begins all over again. Players are sure to win one prize but therefore also have the opportunity to win multiple prizes.
